### Performance By...

GOOH12 excels on medium soils. A semi-determinate ear type allows for population flexibility but best performance is at the area average planting population. GOOH12 is an excellent option for any cropping rotation.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
