Performance By...

G98B71 excels on fine-textured soils. A semi-flex ear allows optimum performance to be at the area average planting population. The best performance of G98B71 is when placed on rotated acres.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
