Performance By...

G98L17 excels on coarse-to-medium soils, including stress acres. Performance is best at grower-standard planting populations (31,000-34,000 plants/A). G98L17 is an excellent choice for continuous corn and rotated acres.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
