Agrisure Viptera®
3220 E-Z Refuge®

Silage Proven

New

PRODUCT INFORMATION

LG44C34 has excellent above ground insect protection with Agrisure Viptera® 3220 E-Z Refuge®. It is a tall, high yielding, potential dual purpose product. Silage proven.

- A taller, high yielding, dual purpose product, having blocky, girthy ears.
- Excellent above ground insect protection with Agrisure Viptera® 3220 E-Z Refuge®.
- Very good disease ratings, including excellent scores against Goss's Wilt, Diplodia ear rot, and stalk Anthracnose.
- Handles cooler soils and is well adapted to no-till.

MANAGEMENT TIPS

LG44C34 is best adapted in the central and east on productive to variable fields. Can be planted north of zone as a full season product. Use of a fungicide may help late season stalks. Can be effectively used when planted in continuous corn.

GDU's are estimates based on observations and are to provide guidelines for area adaptation. Scores and characteristics are assigned by LG Seeds based on comparisons with similar maturity LG and competitive products through internal field testing. Preferred Placement Zones represent the best areas of adaptation for a product based on in-field observations, genetic background, and trial data. Products may fit within only a portion of a zone, and products may perform well in other areas not identified. Contact your sales team for details.
