

LR 9495 VT3PRIB

95 Day

Also available as LR 9495 VT2PRIB, LR 9495 RR, LS 5495 Conv.

HYBRID FEATURES

- Shorter hybrid with good early plant vigor
- Very good stalk and roots for late season standability
- Handles stress very well
- Above average Goss's Wilt tolerance

HYBRID BENEFITS

PLACEMENT RECOMMENDATIONS

- Herbicide Tolerance: Glyphosate
- Average flowering for maturity
- Excellent greensnap tolerance
- Very good drought tolerance for tough and variable environments
- Medium-short hybrid with reduced residue at harvest
- Recommended for corn-on-corn acres or when rotating to corn fields without corn rootworm pressure

Rating Scale: 10-1; 10 = Superior, 5 = Average, and 1 = Poor

Flowering: 10 = Very Early, 1 = Very Late

Plant Height: MS = Medium Short, M = Medium, MT = Medium Tall, T = Tall

Ear Height: MH = Moderately High, M = Moderate, ML = Moderately Low

Ear Type: F = Flex, S = Semi-Determinant / Semi-Flex, D = Determinant

Recommended Planting Population:

L = Low, ML = Moderately Low, M = Medium, MH = Medium High, H = High

Characteristics: HR = Highly Recommend, R = Recommend, C = Caution

Treated with QuickRoots®

Dual Purpose Hybrid

AGRONOMIC CHARACTERISTICS

Maturity Zone	3-4
Flowering	5
GDU Flowering	1310
GDU Black Layer	2350
Plant Height	MS-M
Ear Height	ML-M
Ear Type	S
Kernel Rows	16-18
Cob Color	Red
Husk Cover	Average
Root Strength	8
Stalk Strength	8
Stay Green	7
Recommended Planting Population	M-H
Irrigation	HR
No-till	HR
Coarse Texture (CEC<8)	R
Medium Texture (CEC 8-14)	HR
Fine Texture (CEC>14)	R
Silage	C
Corn on Corn	R

DISEASE TOLERANCE

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Seed containing a patented trait can only be used to plant a single commercial crop from which seed cannot be saved and replanted. Examples of seed containing a patented trait include but are not limited to Genuity® Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, Genuity® Roundup Ready® spring canola, and Genuity® Roundup Ready® winter canola. Additional information and limitations on the use of these products are provided in the Monsanto Technology Stewardship Agreement and the Monsanto Technology Use Guide. U.S. patents for Monsanto technologies can be found at the following webpage: <http://www.monsantotechology.com>

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. *Only commercialized products have been approved for import into key export markets with functioning regulatory systems.* Certain products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. **Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Growers should refer to <http://www.biotradestatus.com/> for any updated information on import country approvals.** Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax® RIB Complete® corn blend is not allowed to be sold for planting in the Cotton-Growing Area. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready technology contain genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Acceleron®, Genuity®, RIB Complete and Design®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, Roundup®, SmartStax®, VT Double PRO® are trademarks of Monsanto Technology LLC. LibertyLink® and the Water Droplet Design® are registered trademarks of Bayer. Herculex® is a registered trademark of Dow AgroSciences LLC. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners. Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, QuickRoots®, and Roundup Ready PLUS® are trademarks of Monsanto Technology LLC.

ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING. IT IS A VIOLATION OF FEDERAL AND STATE LAW to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. IN CROP USES MAY NOT BE APPROVED IN ALL STATES. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans.

Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or refer to Monsanto's Technology Use Guide for recommended weed control programs.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® technology contains genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, nonselective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of Bayer.

Agrisure® Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, Inc. Herculex® Technology incorporated into these seeds is commercialized under license from Dow AgroSciences LLC. HERCULEX® and the HERCULEX Shield are trademarks of Dow AgroSciences LLC.

Agrisure®, Agrisure Artesian®, Artesian™, Agrisure Duracade®, Agrisure Viptera® and E-Z Refuge® are trademarks of a Syngenta Group Company.

LIBERTY LINK® Seeds containing the LibertyLink® trait may be protected under one or more U.S. patents and may be planted only to produce one (1) commercial crop in a single season, and only after signing a Bayer Grower Technology Agreement. It is illegal to save seeds containing the LibertyLink trait for use as planting seed or for transfer to others for use as planting seed.

© 2018 Bayer CropScience LP, 2 TW Alexander Drive, Research Triangle Park, NC 27709. Always read and follow label instructions. Bayer, the Bayer Cross, ILeVO, InVigor, Liberty, LibertyLink, Poncho, VOTIVO, and the Water Droplet Design are registered trademarks of Bayer. Not all products are registered for use in all states. For additional product information, call toll-free 1-866-99-BAYER (1-866-992-2937) or visit our website at www.CropScience.Bayer.us.

®HERCULEX, and the HERCULEX Shield Logo and are trademarks of The Dow Chemical Company ("Dow") or an affiliated company of Dow. HERCULEX Insect Protection technology by Dow AgroSciences and Pioneer Hi-Bred. Follow IRM, grain marketing and all other stewardship practices and pesticide label directions. Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of Bayer.

Dow AgroSciences is a member of Excellence Through Stewardship® (ETS). Dow AgroSciences' products are commercialized in accordance with ETS product launch stewardship guidance, and Dow AgroSciences' Product Launch Stewardship Policy.

Before selecting hybrids for your crop plan, Dow AgroSciences recommends you know and understand whether the hybrid you have chosen is a conventional hybrid, one approved for export or one not yet approved for export. It is important that you consult your trait provider's technical agreements prior to planting to understand crop requirements and approved corn markets.

Any grain or material produced from Bt seed can only be exported to, or used in, processed in or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotechnology traits across boundaries into nations where import is not permitted. Talk to your grain handler or purchaser in advance to facilitate appropriate crop and grain or material handling and marketing.

For further information about your crop or grain marketing options, contact Dow AgroSciences at 877-4-TRAITS (877-487-2487). Information regarding the regulatory and market status of agricultural biotechnology products can be found at: biotradestatus.com.

DuPont™ STS® logo is a registered trademark of E.I. du Pont de Nemours and Company. DuPont™ and STS® are trademarks of DuPont or its affiliates. STS® is a tolerance gene that allows aggressive rates of either Synchrony® XP herbicide or Harmony® SG herbicide tank mixed with glyphosate in post, in-crop applications. This provides a simple, cost-effective weed control option for tough weeds such as lambsquarters, marestail, morning glory, ragweeds, yellow nutsedge, and many other broadleaf or sedge weeds in soybeans. Contact your local DuPont™ agriculture retailer or local sales representative for details. Always read and follow all label directions and precautions for use.
